

ARCHITECTURAL FUTURE

CREATED BY FANCY FENCE

FANCY FENCE SYSTEM

Where Innovation Meets Practicality

Our retractable gate and fence system features a smart gate bay that gracefully lowers into the ground with its built-in drive, disappearing when not in use. This seamless blend of form and function ensures stability and durability for your project.

THE SYSTEM IS EQUIPPED WITH:

- a drainage pump to protect the mechanism from flooding,
- modern safety sensors,
- removable and manual mode covers.

DESIGN YOUR SPACE

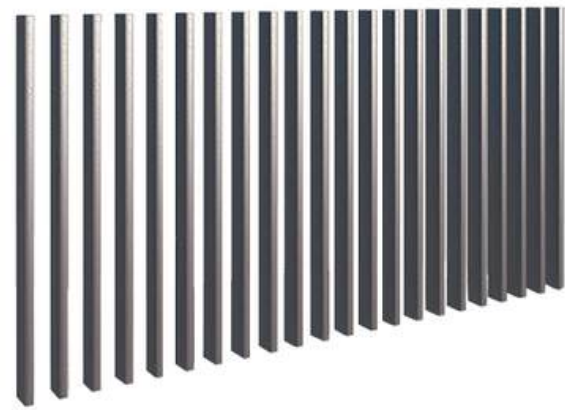

The Fancy Fence system can be customized to fit the specific needs and any smart building design.

FLEXIBLE DESIGN

With a wide range of customizable options, you have the creative freedom to design gates and fences that match your vision and unique preferences.

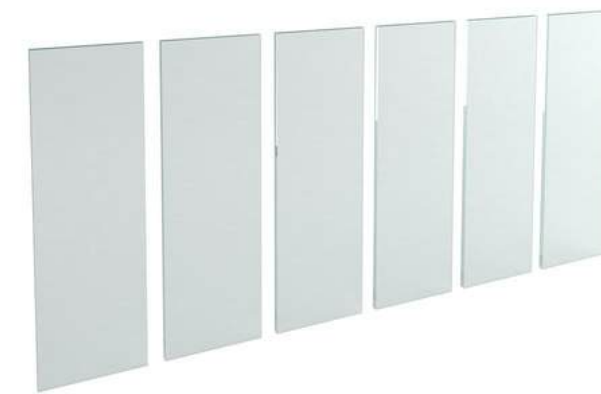

VARIOUS MATERIALS

Steel / aluminium pickets

HPL panels

Glass panels

Wood

Stainless steel pickets

Corten panels/pickets

Semi-clad

Fully-clad

AESTHETIC HARMONY

Fancy Fence visually appealing choice that doesn't compromise the overall design integrity.

Versatility at its best!

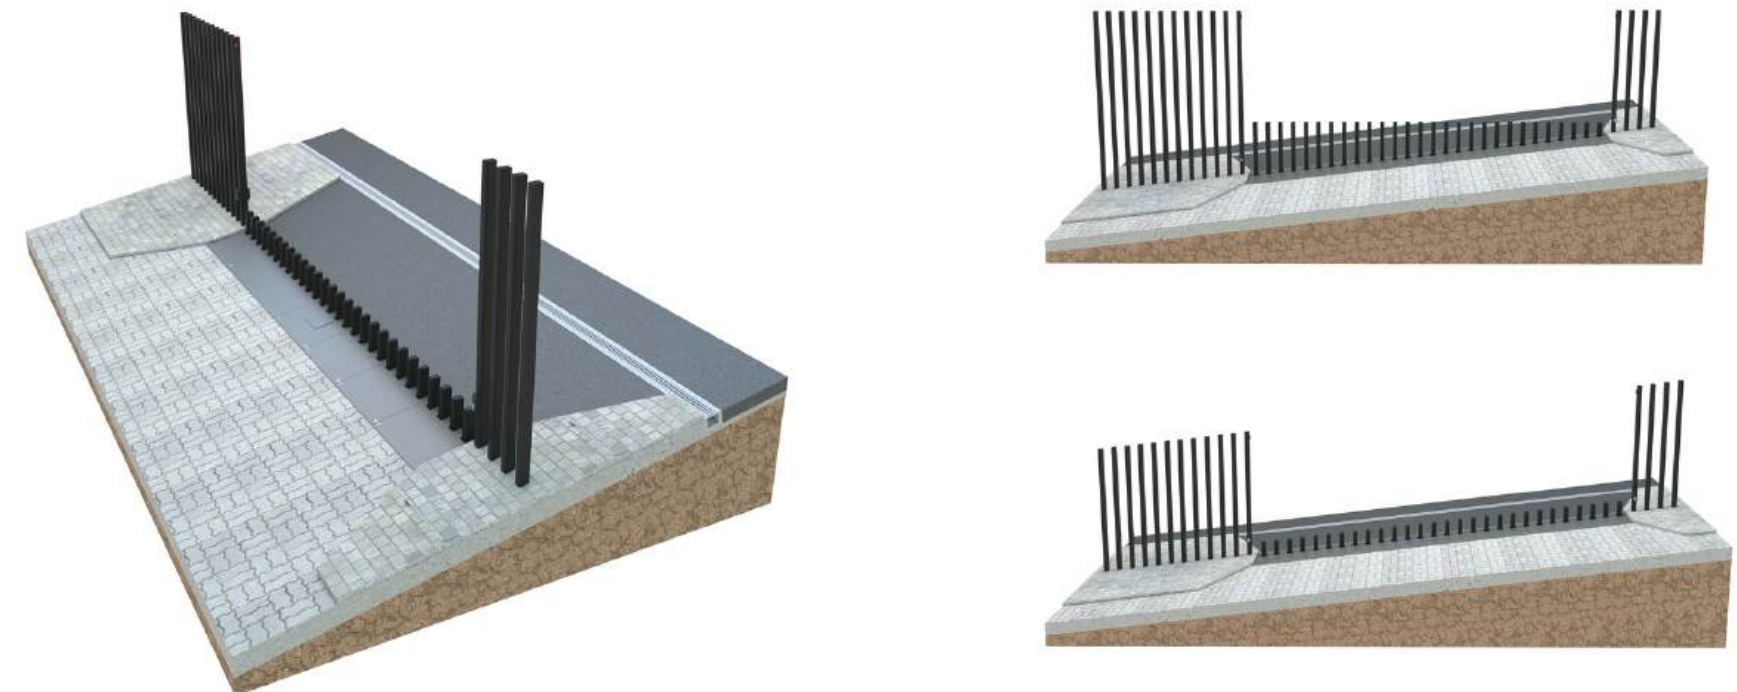

COVERS

- Standard steel covers with or without a non-slip layer.
- Lids adapted to any filling.
- Stainless steel lids.

SLOPPING TERRAIN

Our retractable gates and fences are **the only type available on the market** that can be installed on sloping driveways without having to level the terrain around them.

SECURE COMFORT

Fancy Fence's advanced & unique comfort-driven solutions bring smart security and peace of mind.

AUTOMATED CONTROLS

Fancy Fence solution easily integrated into a smart building's control system

ENERGY EFFICIENCY

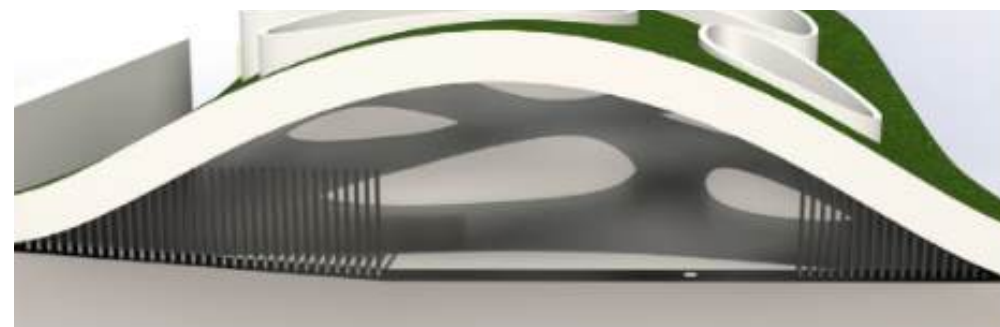

Fancy Fence products designed with a focus on sustainability and energy efficiency

NOISE REDUCTION

Fancy Fence's quiet operation complements the peaceful environment of a smart building

VERSATILE SYSTEM DIVERSE USES

The state-of-the-art
Fancy Fence system's
retractable gates and
fences are versatile,
serving both residential
and public spaces.

SAFE ZONES

Anti-terrorism gate is perfect for public areas, embassies, schools, and military installations.

It will effortlessly secure any spaces, eliminating the need for labor-intensive setups at public gatherings.

CRASH-TESTED ANTI-TERRORISM GATE

Our antiterrorism gate proved its mettle in rigorous crash tests at Germany's renowned CTS lab. It's **the only system worldwide** that seamlessly combines access control with protection against terrorist threats. Certified by ASTM and IWA for the highest level of security.
